Your advantages at a glance

Looking good on every site.

Whether in the office or in public areas cold drinks vending machines from Sielaff are suited to any location and are highly profitable. The machines in the Robimat X-series guarantee impulse purchases and ensure sustainable customer loyalty and turnover. Their modular concept is equally sustainable: they are manufactured from 99.7% recyclable materials.

For these reasons Sielaff machines should always be your first choice. Offer your customers an increased selection of products that are well displayed behind a large impactful sales window. These machines will also be pleasing to the eye as they integrate perfectly into your existing machine line, thereby attracting customers and delivering turnover.

Every cold drinks machine in the Robimat X-Series is well equipped for the perfect presentation of your product range: First-in-first-out principle, full size glass front with perfect product illumination; the Sielaff lift system for gentle dispense. There are almost no boundaries when it comes to selecting products and filling these vendors.

Versatile sales aptitude on a large scale

Behind the large glass front, LEDs illuminate the interior which houses 5 shelves with sufficient capacity for up to 405 x 0.5L PET bottles – spectacular product delivery in under 10 seconds.

A large product range to entice customers

With nine channels per shelf (Robimat XL) or a maximum of seven for the Robimat XM, Sielaff's X-series provides huge capacities, sufficient to satisfy any site.

“Made in Germany” means quality.

Sielaff's vending machine solutions are based on an intelligent modular concept and designed to suit individual sites and your own needs. They also provide high reliability coupled with outstanding value for money.

Less is more: energy-efficient and quiet.

The innovative Robimat X-Series boasts an energy efficiency better than A++ and virtually silent product delivery.

Today, security is a key factor on many sites.

Vandal-resistant and tamper-proof delivery outlet with its door lock function: With the High Security version you are always playing it safe.

Easy to transport and install.

Machines in the Robimat X-Series can be moved with a pump lift truck, with no need for a pallet. They are free-standing with height-adjustable feet – ready to deliver sustainable turnover straightaway.

* of the total machine weight

Talent & Technology

General

- Sells glass bottles, PET bottles, cans
- Takes products from 200 to 910 grams in weight with a diameter up to 72 mm
- Perfect for a vending machine line
- Personalised design possible for door, side walls and delivery pocket
- A single control board is installed in the sliding side drawer for ease of accessibility
- Modular structure – particularly easy to service and recycle

Energy Efficiency

- Energy efficiency rating better than A++
- Internal LED-illumination
- Insulated glazing to front door with laminated safety glass

Cooling

- Low-maintenance, hermetically closed high-performance push-in chiller with optional CO₂ coolant
- Heat-trapping gas HFKW-134a with a global warming potential of 1430
- Bilateral air flow for maximum internal cooling

Product Delivery Pocket

- Made from high quality plastic
- Easy-to-clean. Can be removed with one hand
- Dishwasher-proof

Shelving

- Shelves of 7 to 9 facings divided into three drawers for easy filling
- Top drawers are tiltable
- Transparent product retention clips, giving an unrestricted view of the products
- First-in-First-out dispense principle
- Automatic shelf recognition

Product Delivery

- Products delivered quickly and quietly in less than 10 seconds
- Products delivered to the delivery unit with virtually no shaking
- Sensor in the product basket monitors sales process
- Illuminated product delivery at an ergonomic height

Payment Systems

- Easy integration of payment systems

Delivery and installation

- Transported by forklift, no pallet required
- Simple to install and commission

Amazingly Secure

Security at the highest level.

There are many reasons why Sielaff machines stand for sustainable vending: technical know-how, intelligent innovations, products to suit the marketplace, ease of servicing. Or perhaps simply that there is a machine specification for every situation and location.

Indoor locations are sometimes subject to vandalism and where a rugged design is the prerequisite for successful vending, the Robimat X-Series with High Security is the right choice. These machines offer impact protection, metal keypad, coin insert slide and coin return drum to prevent manipulation, locking lever protection, security frame with side lock (optional) – ideal for schools, railway stations and airports.

At Sielaff however, security does not make servicing difficult. The impact protection is quick and easy to open for cleaning.

Standard

- Anti-vandalism panel
- Coin-insert slide and change drum
- Re-inforced locking lever protection
- Metall selection keypad

Optional

- High security frame and side lock for when the machine is not protected by a housing.
- An additional back panel can be fitted to a machine which is not positioned against a wall: improved security and extra branding opportunity

Robimat XL in high security design.
